

The stand-alone ID hospital vs. the ID department in a big hospital

Winfried V. Kern

Division of Infectious Diseases
Department of Medicine
University Hospital Freiburg, Germany

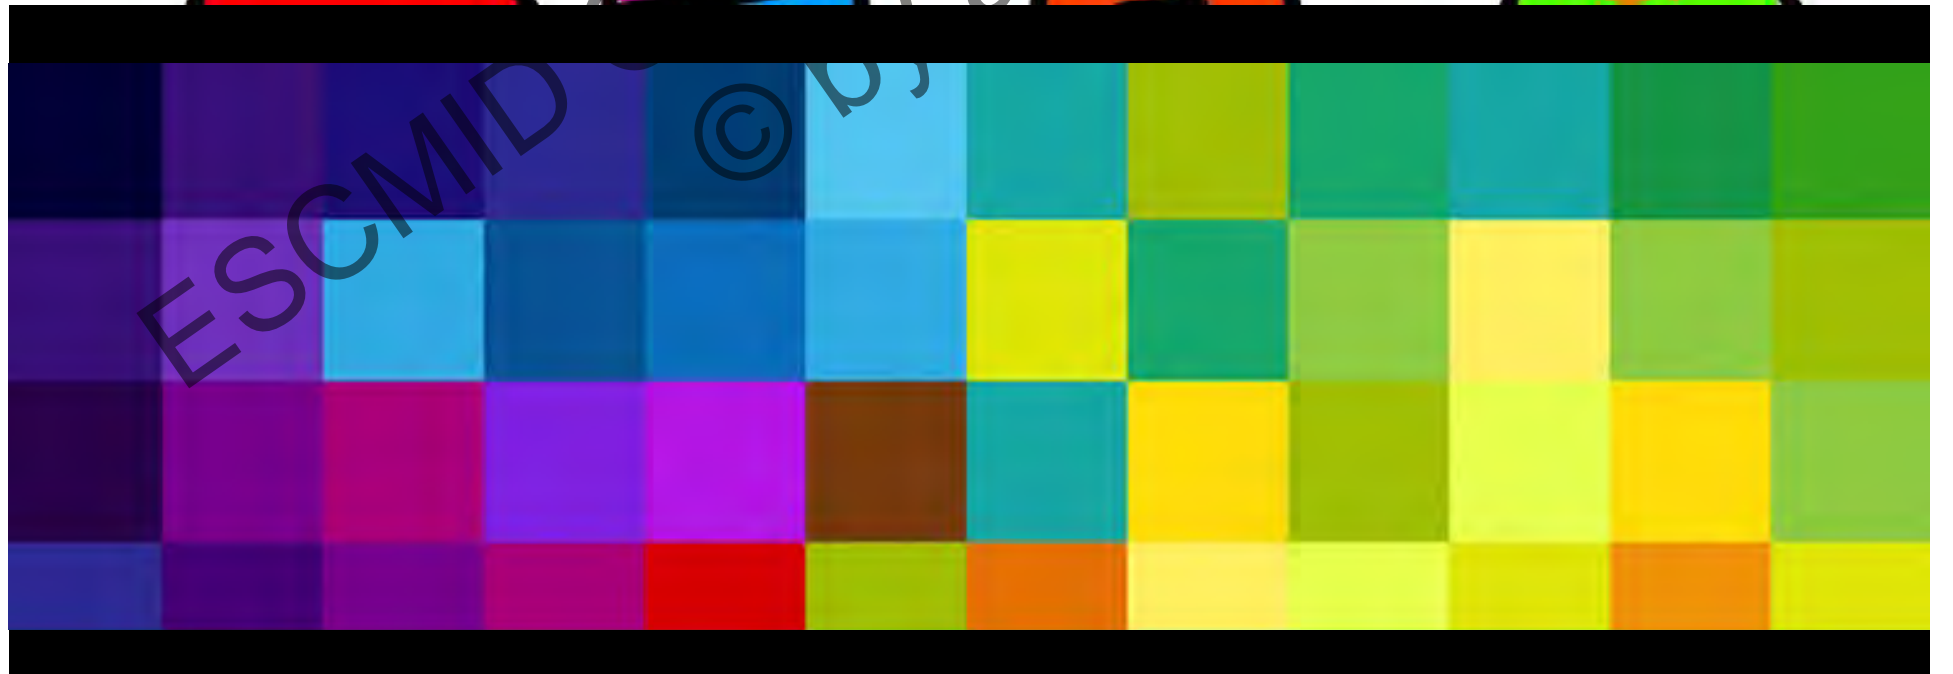

You (should)

never stand

(walk) alone !

a small ID division in a big hospital

- 12 beds on an ID ward (+consult service +clinics +lab & clinical research)
- part of a 300-bed department of medicine
- part of a 1250-bed university hospital (+pediatrics +psychiatry)

versus

35-40% antimicrobial use
(1-day point prevalence)

a small ID division in a big hospital

- 12 beds on an ID ward (+consult service +clinics +lab & clinical research)
- part of a 300-bed department of medicine
- part of a 1250-bed university hospital (+pediatrics +psychiatry)

versus

~450 patients each day on
antimicrobials !

a small ID division in a big hospital

- 12 beds on an ID ward (+consult service +clinics +lab & clinical research)
- part of a 300-bed department of medicine
- part of a 1250-bed university hospital (+pediatrics +psychiatry)

versus

~450 patients each day on
antimicrobials across disciplines !

a small ID division in a big hospital

- 12 beds on an ID ward (+consult service +clinics +lab & clinical research)
- part of a 300-bed department of medicine
- part of a 1250-bed university hospital (+pediatrics +psychiatry)

versus

~100 new patients per week with antimicrobials across disciplines !

a small ID division in a big hospital

- 12 beds on an ID ward (+consult service +clinics +lab & clinical research)
- part of a 300-bed department of medicine
- part of a 1250-bed university hospital

inadequate prescribing

~30% (10-70%)

~100 new patients per week with antimicrobials across disciplines !

a small ID division in a big hospital

- 12 beds on an ID ward (+consult service +clinics +lab & clinical research)
- part of a 300-bed department of medicine
- part of a 1250-bed university hospital (+pediatrics +psychiatry)

... and the need to optimize infection management (and improve outcomes and increase patient safety) in at least 30 patients per week across disciplines

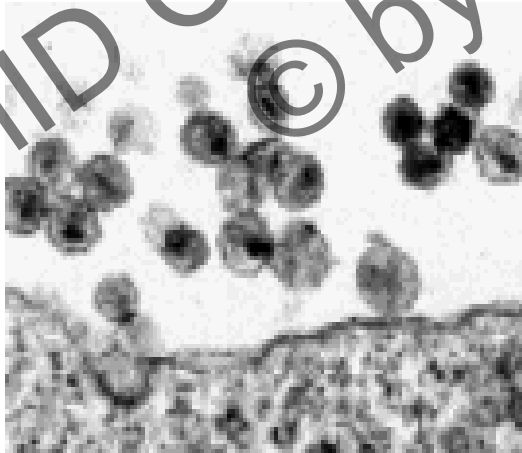

my summary and conclusions
