ECCMID 2017

Organisation of scientific sessions at ECCMID

- ECCMID 2013 Berlin 2-hour Symposium: MRSA and ESBL: potential impacts on public health (not selected)

Organisation of educational workshops at ECCMID

- ECCMID 2013 Berlin 2-hour Educational Workshop: Surgical site infections: driving rates down and keeping them there (accepted)
- ECCMID 2013 Berlin 2-hour Educational Workshop: Infection control issues in different types of long-term healthcare facilities (UFCs), organised jointly with ESFRI (accepted)

Organisation of scientific meetings and workshops outside ECCMID

- There were workshops organised for the TRICE follow on project (TRICE-Implementation Strategy). This comprised a meeting in ECDC, Stockholm (9-10th September, 2013).
- There was also an ESGNI Business meeting held on March 22, 2013; 09:00-15:00.

Organisation of educational activities outside ECCMID

- PGEC Hospital Epidemiology, Brussels, Sep 2013
- Applied Infection Control Module
- Healthcare-associated Infection Advanced Epidemiology Module

Funded research projects (especially collaborative projects)

- Survey on patient isolation
- Questionnaire-based survey
- European Network in Infection Control
- TRICE-IS
- A project on bloodstream infections and nosocomial pneumonia

Other important activities

- ESGNI members were reviewers to CMJ, 7 5G reviewers for the ESMCID Research Grant programme for 2014, evaluating 22 grants submitted in 2013. Several members had also helped referee abstract submissions to the ECCMID
- ESGNI was invited to propose an outline of a chapter on "laboratory hygiene and safety", which will be part of a new form of microbiology textbook. The proposal was submitted to the ESMCID executive (Gunnar Kalmer) during spring 2013
- ESGNI executive members were invited as a speaker to ESMCID Course "Hospital-Acquired Infections: Understanding the Magnitude and Needed Interventions" to be held in Muscat, Oman
