

What is e-Bug?

e-Bug is a health intervention comprised of **educational resources** and an accompanying website to enhance young peoples knowledge on four key areas:

- Introduction to microbes
- Spread of infection
- Treatment of infection
- Prevention of infection

Aim

All children will leave school with a knowledge of **prudent antibiotic use** and how to reduce the spread of infections for themselves and future young children, which is where much of the antibiotic misuse occurs.

The partnership collaboration

The e-Bug partnership is an active collaboration between e-Bug and the partner institution:

- e-Bug team will:**
- Provide translated resources and ongoing web support
 - Send monthly web log analysis reports
 - Seek funding for European meetings and future research
 - Create any new materials as deemed necessary

- YOUR COUNTRY**
- Implement e-Bug
 - Promote e-Bug
 - Investigate local funding for implementation and future research
 - Obtain support from your Ministry of Education
