Objectives

• Promoting standardization in forensic microbiology
• Set up study group research projects
• Cooperation between European Societies of microbiology and pathology

Publications in 2018

Educational activities in 2018

Co-organisation of the course «The plague: a multidisciplinary approach» 10-11 October Vitoria, Spain.
Round table “Microbiologia Forense” at the AMCLI (Associazione Microbiologi Clinici Italiani), 13 Nov. Rimini, Italy
Participation at the 1ª Jornada Científica de la Sociedad Española de Patología Forense (SEPAF), 14 May
Participation at a Workshop about bioterrorism organised by the ECDC, Stockholm, 28-29 November

Educational activities planned in 2019

• Challenges in the diagnosis of life-threatening infections. ESCMID Postgraduate Education Course 10-12 October 2019, Zagreb, Croatia
• Joined workshop at the 31ª European Congress of Pathology, Nice, France, 7 - 11 September 2019. Joint activity with the Autopsy Working group of the European Society of Pathology
• Short course “Post-mortem microbiology”. Faculty of Medicine of Tunis, Tunisia, 5 November 2019

ESGFOR membership:
• Open to all ESCMID members with an interest in Forensic Microbiology.
• For further details please visit our website at: https://www.escmid.org/research_projects/study_groups/forensicpostmortem_microbio/ or email our contacts:
  veroniek.saegeman@uzleuven.be
  amparo.fernandezrodriguez@justicia.es

Registration open at our website!!
For clinical microbiologist, infectious disease physicians, pathologists, molecular biologists, TAE, students interested in the clinical, molecular and forensic diagnosis of life-threatening infections.
