

Scientific Speed Dating: CV form for mentors

First & Last name:

Emily G. McDonald

Affiliation:

Research Institute of the McGill University Health Centre and CMI Communications

Career in brief (please specify only the principal steps):

I'm a subspecialist in general internal medicine with a masters in epidemiology. I'm an associate professor of medicine and chair of quality and safety at McGill University in Montreal, Canada.

Main field of expertise (max 3 topics of interest):

- Randomized clinical trials
- Infectious diseases
- High Value Healthcare

Personal statements about myself:

I run clinical trials in medication appropriateness, high value care, and infectious diseases (e.g., BALANCE, BALANCE+, SNAP, TAPER-V and the SPIRIT PCP Platform). I'm an associate editor at CMI Communications, section head of the Debunking Dogma series, and one of the hosts of the podcast, Communicable.
