OEGIT
Österreichische Gesellschaft für Infektionskrankheiten und Tropenmedizin

Portrait and Mission
OEGIT is a not-for-profit organization to foster research and continuous education in the field of infectious diseases. To reach that goal, regular scientific and educational meetings are held, research and clinical studies are performed, consensus papers are published, and exchange between researchers and other associations in the field of infectious diseases is strengthened. Furthermore, OEGIT aims to facilitate acquisition of medical literature to be used for the performance of scientific studies.

Awards

At the annual conference the OEGIT presents the infectious diseases award to outstanding scientists, working in the field of the basic and medical microbiology and hygiene:

Winners 2017
Dr. Andreas Bergthaler
Superoxide Dismutase 1 Protects Hepatocytes from Type I Interferon-Driven Oxidative Damage
