COVID-19 diagnostics: Lights and shadows
Thursday 7th May 2020, 18:00 Central European Summer Time

Join the Webinar by clicking here

18:00-18:10 Welcome

Moderators: Mario Poljak (University of Ljubljana, Slovenia), Emmanuelle Cambau (Hopital Lariboisiere/Université Paris Diderot, France)

18:10-18:30 Molecular diagnostics of COVID-19: homemade or commercial methods?
   Gilbert Greub (University Hospital Centre (CHUV), Lausanne, Switzerland)

18:30-18:50 Relationships between clinical course and virological results: when and how to use molecular tests
   Bruno Lina (HCL – UCBL, Lyon, France)

18:50-19:00 Q&A

19:00-19:20 Serological tests: which role in the diagnosis of COVID-19?
   Maurizio Sanguinetti (Università Cattolica del Sacro Cuore, Rome, Italy)

19:20-19:40 How diagnostics could inform COVID-19 exit strategies?
   Jacob Moran-Gilad (Ben-Gurion University, Beer Sheva, Israel)

19:40-19:50 Q&A

19:50-20:00 Conclusions
   Maurizio Sanguinetti (Università Cattolica del Sacro Cuore, Rome, Italy)
