Antimicrobial stewardship at ECCMID 2016

This newsletter is a bit special, as we decided to focus on interesting presentations (oral and poster) at ECCMID 2016 in Amsterdam. For each presentation, a link is provided toward the abstract and the presentation.

**ePosters**

- The potential utility of QuickFISH on positive blood cultures to inform antimicrobial stewardship decisions || ePoster EP0212. Presenter: Tehmina Bharucha. Abstract. ePoster.
- The global point prevalence survey of antimicrobial consumption and resistance (Global-PPS): first results of antimicrobial prescribing in University Medical Centre Ljubljana, Slovenia || ePoster EV0676. Presenter: Bojana Beovic. Abstract. ePoster.
- Assessing the implementation of a national antimicrobial prescribing and stewardship competences into undergraduate curricula || ePoster P1303. Presenter: Emma Budd. Abstract. ePoster.
- Knowledge, attitude and behaviour towards antibiotic use among medical students and residents in Tawam Hospital, UAE || ePoster P1301. Presenter: Yanal Salam. Abstract. ePoster.
Oral presentations

- Clinical implications of rapid results of antimicrobial susceptibility testing || Oral Presentation S539. Presenter: Esther Calbo. Slides.

ESGAP member

Would you like to receive up-to-date information in AS? Would you like to become an ESGAP member? Becoming an ESGAP member has never been easier: just log in to the ESCMID website (you need first to be an ESCMID member to become a study group member), and complete the application form (<1 minute). Afterwards, you will receive an email in order to confirm your subscription.

Contact Information:
Guillaume BERAUD.
