Congress "80th Anniversary of the Institute of Tropical Medicine, Pedro Kouri"  
9th Cuban Congress of Microbiology & Parasitology  
6th National Congress of Tropical Medicine  
6th International Symposium of HIV/AIDS Infection in Cuba  
5-8 December 2017  
Convention Palace, Havana, Cuba

AUSPICES BY: Ministry of Public Health of the Republic of Cuba (MINSA), Cuban Society of Microbiology and Parasitology (SCMP), 'Pedro Kouri' Institute of Tropical Medicine (IPK), Cuban Society of Hygiene and Epidemiology, Cuban Society of Immunology, National Council of Health Scientific Societies (CNSCS)

The Congress "80th Anniversary of the Institute of Tropical Medicine Pedro Kouri", 9th National Congress of Microbiology and Parasitology, 6th National Congress of Tropical Medicine and International Symposium on HIV/AIDS infection in Cuba, will be held from 5 to 8 December 2017 at the Convention Palace.

These congresses will provide a room for updating, exchange experiences and knowledge on the role of the microbiology and parasitology in addressing infectious diseases, emerging and re-emerging and neglected tropical diseases. Zika, dengue and other arbovirus diseases, HIV/AIDS, tuberculosis, malaria, cholera, influenza, microbial resistance, capacity strengthening, and globalization of infectious diseases and others will be important topics for discussion. The historical background of the Cuban microbiology and parasitology as well as the development of the Institute of Tropical Medicine is these 80 years will be showed.

Pre-congresses courses will be held on Monday 4, 2017 at the Institute of Tropical Medicine "Pedro Kouri", IPK. Registration to the courses is independent of congress registration. Those interested to attend the pre-congress courses should ask for their registration at the course of interest http://instituciones.sld.cu/ipk/

MAIN TOPICS

- Infectious diseases
- Neglected tropical diseases
- Emerging and Re-emerging Infectious Diseases
- Diagnostic
- Epidemiology of transmissible diseases
- Cellular & molecular biology
- Immunology & Genetic
- Pathogenesis
- Genomic & Proteomic
- Mechanisms of Action and Drug Resistance
- Vaccines & Drugs. Clinical Trials. Vaccine adverse effect surveillance
- Animal Models
- Social Research
- Communication, education, advocacy, and community involvement
- Genetic of Resistance to Insecticides
- Historic development of the Microbiology and Parasitology in Cuba. Historic background of the Institute of Tropical Medicine, IPK

WORKING LANGUAGE:
- Spanish and English will be the official languages.

ABSTRACT ACCEPTANCE:

Submissions accepted February 13, 2017
Submissions closed April 13, 2017

Abstracts should be submitted via the website http://instituciones.sld.cu/ipk/
All abstracts must be submitted electronically through the electronic abstract submission system http://instituciones.sld.cu/ipk/
Should you require further explanation, send an email to maricbr@inomed.sld.cu

REGISTRATION FEES:

Foreign Participants:
Delegate: 250.00 CUC
Lecturers and delegates with poster and oral presentations: 200.00 CUC
Undergraduate Student: 150.00 CUC
Accompanying Person: 100.00 CUC

Registration Fees include:
Delegate / Lecturer / Undergraduate Student:
Name badge with access to all scientific activities, documents and attendance certificate
Accompanying Person:
Name badge with access to the official activities of the Congress (Opening / Closing Ceremonies), souvenir and participation in social activities.

The participation at the precongress courses does not guarantee the participation at the congress.
Inscription fee: 30.00 CUP (national) and 30.00 CUC (foreign).
